Target Roles: Business Analyst | Data Analyst | Business Intelligence | Sales & Operations Analytics

PROFESSIONAL SUMMARY

Business analytics graduate student with 8+ years of experience in retail, manufacturing, sales operations, CRM, and process improvement. Skilled in Python, SQL, Tableau, R, Excel, predictive modeling, text analytics, data warehousing, and business intelligence. Strong at turning operational data into clear business decisions.

TECHNICAL & ANALYTICAL SKILLS

- Analytics and modeling: Python, Google Colab, R/RStudio, SQL, Excel, predictive modeling, machine learning, text analytics, data mining, clustering, classification, and model evaluation.
- BI and data management: Tableau, SQL Server, database design, ETL, data warehousing, dimensional modeling, KPI reporting, and dashboards.
- Business context: Sales analytics, operations analytics, revenue analysis, CRM insights, forecasting, process improvement, and stakeholder communication.

SELECTED ANALYTICS PROJECTS

- **PVC sales optimization:** Built Python models to classify high-revenue transactions and explain which model best supports sales targeting.
- **Twitter topic evolution:** Used SAS Enterprise Miner to compare conversation themes before, during, and after net neutrality and climate-related announcements.
- **Insurance data warehouse:** Designed SQL Server fact and dimension tables to support profitability, fraud, claims, premium, and risk analysis.
- **County health dashboard:** Built Tableau views to compare provider access, uninsured rates, and preventable hospitalization patterns across counties.

PROFESSIONAL EXPERIENCE

Office Assistant | Office of International Students & Scholars, Quinnipiac University - Hamden, CT | Jan 2025 - Present

- Manage high-volume student communications and scheduling for a department serving students from 50+ countries.
- Analyze engagement patterns to support inclusive programming, outreach, and department visibility.
- Translate administrative requirements into clear action steps for international students and campus partners.

External Market Sales Associate & Key Account Manager | Proplastics Limited - Harare, Zimbabwe | Apr 2022 - Dec 2023

- Managed a key account representing 20% of \$1.2M manufacturing revenue and improved client retention by 20%.
- Doubled merchant customer sales revenue through proactive business prospecting, order management, and follow-up.
- Achieved 85% monthly service appraisal performance for meeting sales revenue targets.
- Reduced supplier back-order delays affecting 30% of \$500K+ monthly revenue by analyzing bottlenecks and coordinating with internal teams.
- Translated order-to-invoice pipeline data into reports that improved visibility from quotation through delivery.

Front of Office Sales Associate | Halsteds Builders Express - Harare, Zimbabwe | Oct 2019 - Feb 2022

- Reduced invoicing errors by 25% by improving payment tracking, outstanding balance follow-up, and invoice reconciliation.
- Resolved an average of 100 daily customer inquiries across walk-in, email, and telesales channels.
- Maintained 85%+ monthly service appraisal scores through consistent customer support and issue resolution.
- Analyzed promotional campaign engagement and helped increase promotional participation by 30%.

Merchandiser & Store Development Lead | Powerspeed Electrical / Electrosales Hardware - Zimbabwe | 2014 - 2018

- Led data-informed store layout planning for 14 retail outlets and supported a 10% increase in in-store revenue.
- Coordinated 6 branch expansions, 3 relocations, and 4 new branch openings.
- Trained staff on merchandising standards, KPI tracking, and performance benchmarking.
